STATINTL

STATINTL

1. The Office of Data Processing requests approval to provide the Federal Bureau of Investigation (FBI) with the assistance requested in the attached memorandum and outlined below.

a. Description of Activity: Technical advice regarding the improvement of the FBI's foreign counter-intelligence information systems. This activity will be coordinated by Mr. ☐ of the IC Staff and involve DDO's CI Staff and Information Services Staff. Mr. Robert Finzel is the point of contact for the FBI.

b. Location of Assistance: CIA Headquarters Building, Langley, Virginia.

c. Organization Involved: Office of Data Processing.

d. Basis for Activity: The "Brook's Bill", P.L. 89-306, encourages executive agencies to share and exchange information related to data processing technology. Since computer technology is being applied in this case to foreign counterintelligence information systems, an area of mutual interest for the CIA and the FBI, the requested assistance appears to be an appropriate mission-related activity for CIA.

STATINTL

e. Financial Costs: None, other than personnel time spent in providing technical information.

f. Manpower: One to five ODP employees are expected to spend no more than ten manhours providing technical information.

STATINTL g. Agency Employee to Consult for Additional Information: [redacted]

2. ODP believes the Agency has authority to provide the requested assistance and that such assistance is uncontroversial and in the best interest of the Federal Government. We, therefore, recommend that the procedure described in Reference b. be used to expedite [redacted]
